BUSINESS SOLUTIONS SINCE 1988.***

**BEAIRD HARRIS
& CO., P.C.**

CERTIFIED PUBLIC ACCOUNTANTS

Proactive Service. Unmatched Integrity.™

Deciding between audit and tax is an important first step when choosing a career in accounting. If you have chosen tax and are looking for a fulfilling internship program, then Beaird Harris is the place for you!

Founded in 1988, Beaird Harris & Co., P.C. is a Certified Public Accounting firm providing tax, accounting and business consulting services to high income and high net worth individuals, businesses and healthcare professionals.

Working exclusively within the high net worth market and medical community, our firm has grown substantially and is widely recognized in the Dallas/Fort Worth Metroplex. We realize that we could not have achieved this magnitude of growth without hiring the best and most highly qualified professionals.

Beaird Harris' full-time internship program is designed to give you valuable, hands-on experience in the practice of public accounting. Students typically enter Beaird Harris through a spring internship program and many join our team full-time upon graduation.

As an intern, you will prepare tax returns, work on special projects and have the opportunity to develop your business advisory skills through our unparalleled mentorship program.

Interning at Beaird Harris is a highly rewarding journey that provides both personal and professional rewards. Our team is dedicated to helping college students and recent graduates begin their career on a solid foundation. Our internship program gives students quality real-world experience, an insider's view into this fast-paced industry, and a foundation upon which to build a career.

We believe that the firm's success and the success of our people are closely linked. With us, you'll be given the resources, training, and support needed to launch a successful career.
